

The Republican Commitment to

A Nation That's Safe

Secure the Southern Border

Record illegal border crossings under the Biden administration have led to more illegal drugs and overdoses, more crime, and a demoralized Border Patrol who are demonized by the left and prohibited from carrying out their law enforcement mission. The crisis at the border has become a national security and humanitarian crisis and must be addressed.

Republicans have a clear plan to secure our border:

- 1. Combat illegal immigration** by requiring proof of legal status when applying for a job and restricting welfare benefits that incentivize illegal immigration
- 2. Confront the national security crisis at the border by ending catch and release**—allowing DHS to detain those who illegally enter our country while their immigration cases are pending
- 3. Require Remain in Mexico** and allow Title 42 authority to be used to confront the public health emergency created by the fentanyl crisis
- 4. Finish building the wall, fully fund ICE and border patrol**, and deploy technology to stop the humanitarian crisis at the border

Reduce Crime and Stop Fentanyl

As a result of Democrats' "Defund the Police" efforts, law enforcement officers across the country are facing the toughest working conditions in years and Democrat politicians undercutting them at every turn. At the same time, the abundance of fentanyl is robbing an entire generation of Americans from a chance at the life they deserve.

murder rate**

**Fentanyl

Republicans will stop the Democrats' assault on law and order:

- ☒ **Fully fund hiring bonuses to recruit more police officers** and address the police shortage across the country
- ☒ **Protect our cops** by making violent crime against them a federal offense

- ✓ **Permanently criminalize fentanyl analogues** to provide law enforcement with tools to prevent drug cartels from flooding our communities with illicit drugs
- ✓ **Place a hold on federal funds for local prosecutors and woke district attorneys** who refuse to prosecute crimes

Defend Our National Security

President Biden has managed our security through weakness and incompetence. He failed to stand up to the brutal Chinese Communist Party, sought to cut deals with the radical Iranian regime, promoted Russian energy, and directly caused the disastrous withdrawal from Afghanistan that killed 13 brave U.S. service members. This America Last foreign policy endangers us all.

of trust and confidence in the
U.S. Military

A majority of Americans agree
that China is the top
**geopolitical

62% of Americans

Afghanistan withdrawal

Republicans will provide for the common defense and exercise peace through strength:

- 1. Invest in the lethality of the U.S. Military** and fight the Democrats' politicization of the Department of Defense
- 2. Hold the Biden administration accountable** for the catastrophic Afghanistan withdrawal
- 3. Counter an increasingly aggressive Chinese Communist Party**
- 4. Stand with Israel against the Iranian Government and terrorism**

FIELD GUIDE

Americans understand the threat Democrats pose to safe communities. But it's equally important Republicans explain how we will restore law and order to American life. There are countless ways to do this effectively.

1 Show your Appreciation

- Drop by a local precinct to thank officers in person for putting their lives on the line to keep our communities safe
- Coordinate a roundtable discussion to hear the issues they are facing, and how they can be better supported
- Organize a ride-along with police officers similar to the House Republican Back the Blue Bike Tour

2 Witness the Crisis Firsthand

- Visit a border state to hear from those on the ground impacted by the dire situation
- Connect with law enforcement and border patrol agents to hear how damaging the Biden administration's negligence has been
- Host a conversation with community members whose safety and livelihoods are impacted by illegal immigration

3 Bring the Issue Home

- Highlight members of your community who are dealing with the negative impacts of an open border such as in Columbus, Ohio, where Republicans held an open meeting with law enforcement and public health officials on the fentanyl crisis
- Lift up the voices of family members who have lost loved ones due to the fentanyl crisis to humanize the issue
