

Feeding the Gang

Dulce Middle School

Student Service

Planning Stage

CATEGORY: Student Service

Project Goal and Implementation:

Our goal was to make some meals for all the students at the Middle School. Being that we are from a very small town we don't have much of an opportunity to have meals at other venues. Even though our cafeteria staff does a good job of feeding the students we wanted to do something different. We decided to do green pancakes on St. Patrick's, a regular breakfast and an end of the year cook out.

- ❖ The STUCO President and Vice-President went to the Principal and got permission for our activities.
- ❖ We then made a list of what was needed and who was bringing what and what needed to be purchased from the store.
- ❖ We then scheduled who would work each activity.
- ❖ We had to coordinate with the Culinary Arts teacher so we could use the kitchen.

Involvement of STUCO:

All of our STUCO members participated in bringing supplies and helping cook and serve the meals we made for the students and staff.

Evaluation:

We know we were successful when we saw the smiles on everyone's faces and all the kudos that we got. Also, we didn't have any food left over either so that was a good sign we did good.

Project Summary:

The students have been doing Culinary Arts program and they have learned many cooking skills. They wanted to use their skills and cook some meals for the students. We are from a town that doesn't have a restaurant and we only have 1 gas station. There is no way for anyone to eat out. So, on March 17th we made green pancakes, bacon, eggs and orange juice. On another day we made just a normal breakfast of eggs, pancakes, bacon, sausage, and OJ. The students absolutely loved it because we didn't have anything left over. Even the kids that usually don't eat breakfast ate on those days. Then for the end of the year the students decided that they wanted to have an end of the year BBQ for everyone. They got with the cafeteria staff and had them order food and then on the day of the cookout they made the hamburgers and hotdogs. They also organized all the other food that we had with the meal.
