ABOUT THE SYMPOSIUM

THE HUNTER REGION IS AN ENERGY, RESEARCH AND INNOVATION POWERHOUSE.

NewH2 - the Hunter Hydrogen Technology Cluster is excited to be hosting the inaugural **Hunter Hydrogen & Energy Symposium** in Newcastle on the **20-22 February 2023**.

- The Hunter Hydrogen and Energy Symposium is a cornerstone event for the region that will feature representatives from industry, government, research and capital markets
- The Symposium will take a deep dive into the significant hydrogen and energy opportunities underway in the Hunter region. The event will showcase significant projects, investments and initiatives that are underway and in development
- Participants will hear from government and industry thought leaders on topics that are driving the region toward realising the vision outlined in the Hunter Hydrogen Roadmap and enabling a clean energy future
- The event will spotlight projects and initiatives that are driving greater economic growth, industry collaboration, research and innovation and increased public and private investment.

At the conclusion of the symposium attendees will have:

- Boosted their understanding of hydrogen and energy industries and future trends
- Learned from and connected with major projects and investment in the region
- Gained a deeper understanding of policy and projects that will impact the region
- Increased awareness of factors to enable “hydrogen and energy readiness”
- Engaged in conversation related to future skills, standards, workforce development.

HUNTER HYDROGEN TECHNOLOGY CLUSTER

NewH2 supports the development of the hydrogen supply chain, reduces overlaps and identifies gaps in the development, deployment and commercialisation of new hydrogen focused technologies.

WHY THE HUNTER?

- An extensive project pipeline, with demonstrated ability to diversify.
- A range of industries with a culture of collaboration.
- A large number of mature SMEs, with specialised skills to catalyse knowledge.
- A vibrant innovation culture and ecosystem.

KEY AIMS OF THE CLUSTER

- To provide the enabling environment for industry to participate in this emerging sector.
- To provide the setting to showcase new technologies and opportunities.
- Through the stakeholders, accelerate opportunities to connect and grow.
- Assist with updates, knowledge exchange and funding opportunities related to the Hydrogen economy.
- To assist in strategy development, both locally and nationally.
- To leverage H2TCA: Hydrogen Technology Cluster Australia and the national network of hydrogen clusters.

The Cluster forms part of H2TCA: **Hydrogen Technology Cluster Australia** - a nationwide network to foster a multi-billion dollar, globally competitive hydrogen technology industry for Australia.
