“The series entitled ‘Royal Abstract’ underline Schibli’s significance as a protagonist in the field of contemporary abstract painting.

Informed by a total freedom of movement, ‘Royal Abstract’ presents Schibli’s most recent exploration of the potential to free painterly practise from the control of conscious. As Schibli states, in allowing the unconscious to move the bottle, the paintings become a reflection of his psychological status.

Schibli presents us with captured moments of his creative impulse and instantaneity.

*I paint with my Soul not with my hands.*”
